

art deco mosaics

NEW to our [Brisbane tile showroom at Mitchelton](#) is a fantastic range of art deco-inspired hexagonal mosaic tiles and penny round mosaic tiles designed for wall & floor applications.

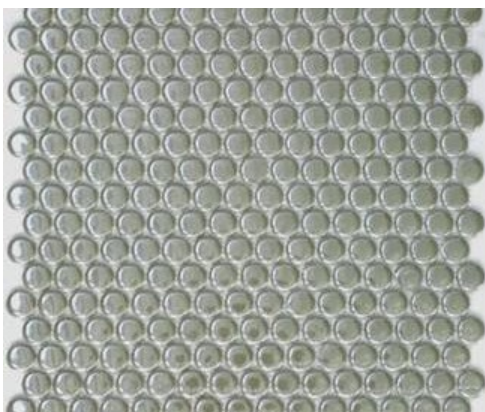

In times past, hexagonal mosaic tiles were used in turn-of-the-century homes right through to homes of the art deco period. When used today, hexagon mosaic floor tiles deliver an ultra-clean, elegant look for bathroom floors and can provide period homes with a refreshed & authentic feel, or give a contemporary home a truly classic look. Our range of hexagonal mosaic tiles is available in unglazed, matt & gloss finishes in 3 timeless colours: black, white & silver. For an interesting 'twist' on the theme, white hexagon tiles can for example be interspersed with black tiles to make geometric or random patterns. They can also be used to make a decorative border around the perimeter of a floor.

Our expanded collection of mosaics now includes the largest range of 'penny round' mosaic tiles Brisbane. Penny rounds have been manufactured for more than a century and are now enjoying a revival as an interesting alternative to larger format, square tiles. Penny rounds and hexagonal tiles are a great way to inject pattern and colour into the wall or floor of your bathroom and kitchen, or to your commercial project. They also work superbly with our [subway wall tiles](#).

Another new arrival in our mosaic stable is the **'domed' metallic mosaic tile** ([see page 5](#)). Available in 2 colours: silver & rose gold, these mosaics are ideal for wall border strips or even as a full feature wall.

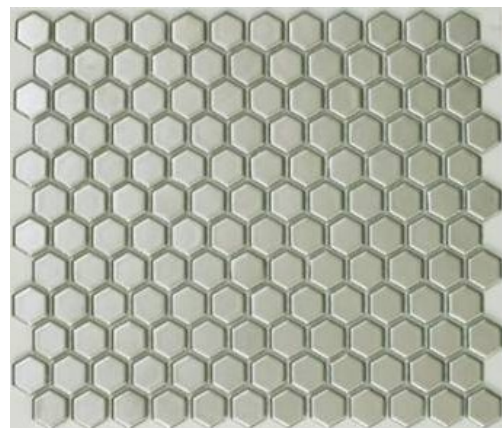

For further information or samples, contact our [Mitchelton showroom](#) on (07) 3355 5055 or email to: sales@tilemob.com.au
